EDUCATION

Sri Eshwar College of Engineering	**B.E(CSE)**	**CGPA**:7.82 (Up to 5th Sem)	**2023-2027**
Chavara Vidya Bhavan	**HSC**	89.67%	**2021-2023**
Chavara Vidya Bhavan	**SSLC**	PASS	**2020-2021**

INTERNSHIP

ISAII AI – Full Stack Developer Intern **2026**

Contributed to building scalable, high-performance frontend features with **Next.js** and **React.js** by developing **user interfaces, refactoring code, fixing bugs, participating in code reviews**, and working in **agile development processes** to continuously improve performance, maintain code quality, and meet project deadlines.

PROJECTS

FitVerse (GitHub) **2026**

FitVerse enables users to achieve **fitness goals** through **structured workout** and **diet tracking**, personalized insights, **visual progress monitoring**, and **collaborative community features**, enhancing overall engagement and consistency.
Tech Stack: React (Vite), Node.js, Express.js, MongoDB Atlas, Vercel, Render

Learn Assess (GitHub) **2026**

Built Learn Assess, an **interactive learning platform** that supports skill development through **adaptive quizzes** and structured content, offering **role-based access**, **adaptive learning workflows**, and a content management interface.
Tech Stack: React (Vite), Node.js, Express.js, MongoDB Atlas, Vercel, Render

Company FAQ Tool (GitHub) **2025**

Developed a **centralized FAQ platform** that enables **users to browse FAQs**, **submit queries**, and receive admin-managed responses, improving support efficiency and minimizing repetitive inquiries for better productivity.
Tech Stack: Next.js, JavaScript, MongoDB Atlas, Express.js, Vercel.

Student Course Analyzer Platform (GitHub) **2025**

Designed and implemented Student Course Analyzer using **ML models** to provide **Interactive Dashboard** with performance Analytics, Predictive Insights and Automatic Report Generation.
Tech Stack: Python, Streamlit, Pandas, NumPy, Scikit-learn, Matplotlib.

CERTIFICATIONS

Software Engineering	**JPMORGAN CHASE & CO**	**2026**
AWS Academy Graduate – Cloud Foundations	**Credly**	**2025**
Learn Java Programming: Beginner to Master	**Udemy**	**2024**
Mastering Data Structures and Algorithms Using C and C++	**Udemy**	**2024**

ACHIEVEMENTS

Selected for the **Sakthi Hackathon 1.0 Finals** conducted by MCET, shortlisted from **1000+ teams**.	**2025**
Took 1st place in the Mini Project Expo 2025, competing against over 240 teams.	**2025**
Won Best Team at the DSCE Hackathon 2025, out of more than 840 participants	**2025**
Solved over 450 problems, ranked in the top 28% worldwide on **LeetCode**	**2025**
Attempted over 600 problems across various topics on **SkillRack**	**2024**
Won 3rd place in CodeLee 2024, an inter-college coding competition.	**2024**
Solved 100+ problems and earned a Bronze Badge on **Codechef**	**2024**
Skilled in C, C++, Java, Python, and SQL, with several badges earned on **Hackerrank**	**2024**

TECHNICAL SKILLS

Languages: Java (Intermediate)|C(Basics)|C++ (Basics)| Python (Basics)
Web Technologies - HTML |CSS |JavaScript
Frameworks & Libraries: React JS | Node JS | Express JS | Next JS
Databases: MongoDB | MySQL | Supabase
Core: Data Structures | OOPS | DBMS | Operating Systems | System Design | Computer Networks
Development tools – VScode | Git & GitHub | Eclipse (JAVA) | Canva | Power BI | Cursor
