EDUCATION

Sri Eshwar College of Engineering	**B.E(CSE)**	**CGPA**:7.82 (Up to 5th Sem)	**2023-2027**
Chavara Vidya Bhavan	**HSC**	89.67%	**2021-2023**
Chavara Vidya Bhavan	**SSLC**	PASS	**2020-2021**

INTERNSHIP

ISAII AI – Full Stack Developer Intern **2026**

Contributed to building scalable, high-performance frontend features with Next.js and React.js by developing user interfaces, refactoring code, fixing bugs, participating in code reviews, and working in agile development processes to continuously improve performance, maintain code quality, and meet project deadlines.

PROJECTS

Learn Assess (GitHub) **2026**

Built Learn Assess, an interactive learning platform that supports skill development through adaptive quizzes and structured content, offering role-based access, adaptive learning workflows, and a content management interface.

Tech Stack: React (Vite), Node.js, Express.js, MongoDB Atlas, Vercel, Render

Company FAQ Tool (GitHub) **2025**

Developed a centralized FAQ platform that enables users to browse FAQs, submit queries, and receive admin-managed responses, improving support efficiency and minimizing repetitive inquiries for better productivity.

Tech Stack: Next.js, JavaScript, MongoDB Atlas, Express.js, Vercel.

Student Course Analyzer Platform (GitHub) **2025**

Designed and implemented a Student Course Analyzer using Streamlit and ML models to deliver an interactive dashboard for performance analytics, predictive insights, and automated report generation.

Tech Stack: Python, Streamlit, Pandas, NumPy, Scikit-learn, Matplotlib.

Meal Mate (GitHub) **2024**

Meal Mate is a console-based Java application that manages recipes, ingredients, and meals using OOP principles, collections, file handling, and JDBC for structured data management and secure storage.

Tech Stack: Java, MySQL

CERTIFICATIONS

Software Engineering	**JPMORGAN CHASE & CO**	**2026**
AWS Academy Graduate – Cloud Foundations	**Credly**	**2025**
Learn Java Programming: Beginner to Master	**Udemy**	**2024**
Mastering Data Structures and Algorithms Using C and C++	**Udemy**	**2024**

ACHIEVEMENTS

Selected for the **Sakthi Hackathon 1.0 Finals** conducted by MCET, shortlisted from **1000+ teams**.	**2025**
Took 1st place in the Mini Project Expo 2025, competing against over 240 teams.	**2025**
Won Best Team at the DSCE Hackathon 2025, out of more than 840 participants	**2025**
Solved over 450 problems, ranked in the top 28% worldwide on **LeetCode**	**2025**
Attempted over 600 problems across various topics on **SkillRack**	**2024**
Won 3rd place in CodeLee 2024, an inter-college coding competition.	**2024**
Solved 100+ problems and earned a Bronze Badge on **Codechef**	**2024**
Skilled in C, C++, Java, Python, and SQL, with several badges earned on **Hackerrank**	**2024**

TECHNICAL SKILLS

Languages: Java (Intermediate)|C(Basics)|C++ (Basics)| Python (Basics)
Web Technologies - HTML |CSS |JavaScript
Frameworks & Libraries: React JS | Node JS | Express JS | Next JS
Databases: MongoDB | MySQL | Supabase
Core: Data Structures | OOPS | DBMS | Operating Systems | System Design | Computer Networks
Development tools – VScode | Git & GitHub | Eclipse (JAVA) | Canva | Power BI | Cursor
